

South Tyrol weather bulletin Thursday, 20.08.2026

Forecast for today, Thursday 20.08.2026
Changeable weather

Reliability: 80 %

Forecast for today

A south-westerly upper-level flow is bringing increasingly moist and unstable air masses into South Tyrol. The afternoon will be mainly cloudy, with occasional, at times heavy, rain showers and thunderstorms moving in from the south-west. Further showers and thunderstorms are expected during the night leading. Maximum temperatures will range from 24° to 27°.

Outlook for the next days

Saturday 22.08.2026
10° / 17° | 21° / 28°

On Saturday partly sunny. A few cumulus clouds will develop during the afternoon, but the likelihood of showers will generally remain low.

Sunday 23.08.2026
11° / 18° | 22° / 29°

Little will change on Sunday. There will be a mix of sun and clouds. Only isolated showers are likely in the afternoon.

Monday 24.08.2026
11° / 18° | 23° / 29°

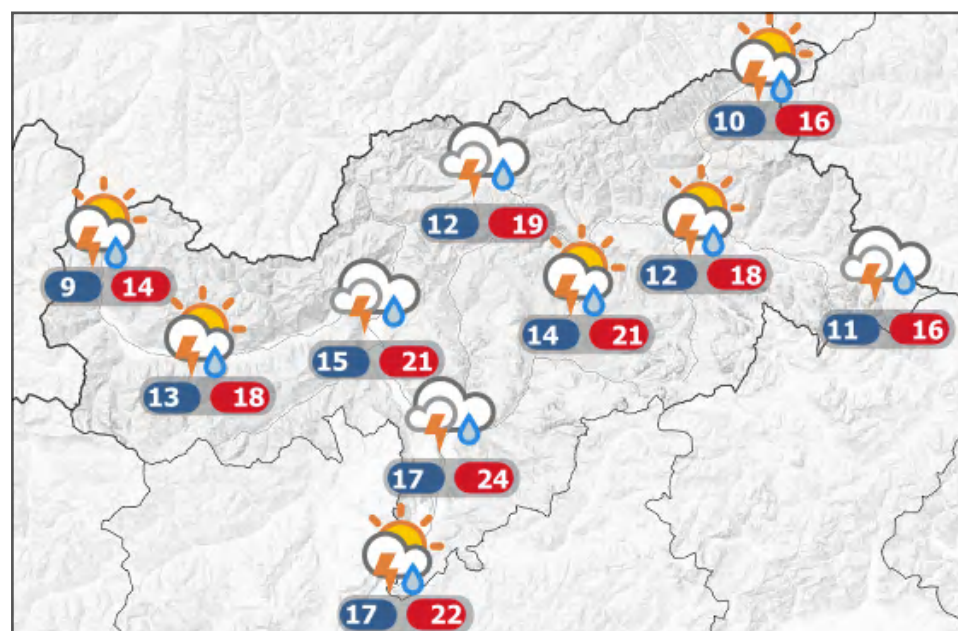

Monday is also expected to remain fairly sunny, with isolated thunderstorms in the second half of the day.

Tuesday 25.08.2026
11° / 18° | 22° / 29°

On Tuesday, rain showers and thunderstorms are likely to become more frequent again.

Forecast for tomorrow, Friday 21.08.2026
Changeable and overcast

Reliability: 80 %

Forecast for tomorrow

Very humid air masses continue to be carried towards the Alps from the south-west. Very cloudy, only few sunny spells. During the course of the morning, heavy rain showers and isolated thunderstorms will move in from the south-west, subsequently spreading across the whole region. The weather will settle down in the evening. Temperatures will remain moderate, with highs of between 19° and 24°.
