

Mountain weather bulletin - Overview

Thursday, 20.08.2026

Forecast for today, 20.08.2026

Increasingly unstable

Reliability: 80 %

General weather situation

A south-westerly upper-level flow is bringing increasingly moist and unstable air masses into South Tyrol.

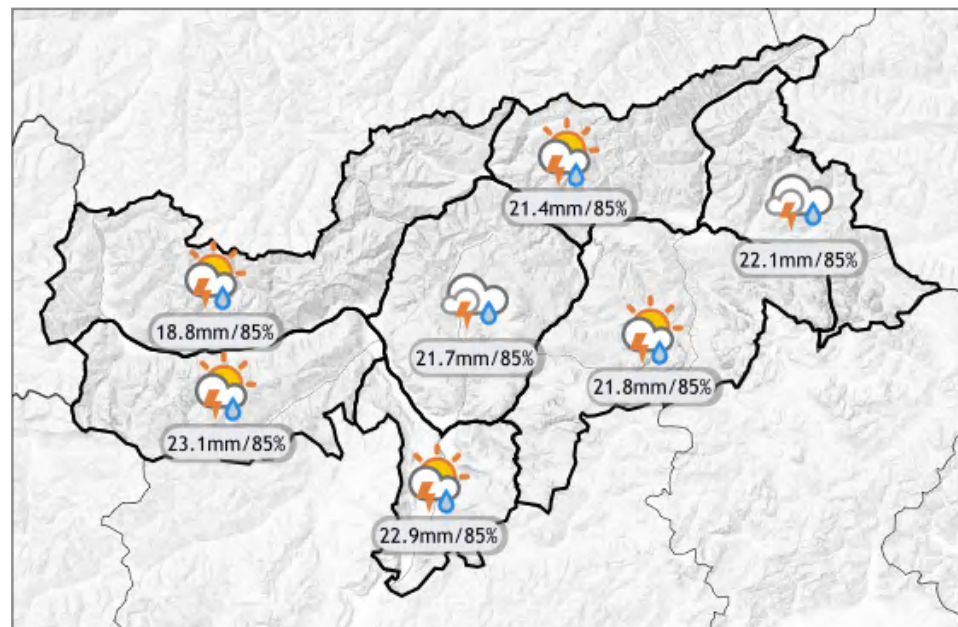

Forecast for today

Clouds will already restrict the visibility on many mountains with first showers in the morning. Widespread, sometimes heavy showers and thunderstorms are expected in the afternoon.

Sun	Sunrise 06:20	Sunset 20:16
Moon	Moonrise 15:18	Moonset 23:26

Forecast for tomorrow, 21.08.2026

Adverse conditions

Reliability: 80 %

General weather situation

Very humid air masses continue to be carried towards the Alps from the south-west.

Forecast for tomorrow

Clouds will often obstruct visibility, and showers and thunderstorms will sweep in from the south-west already in the morning. Conditions are expected to ease as the evening progresses.
